I am a dedicated front end engineer with a design background looking for an opportunity to join a progressive web development and design team allowing me to use my knowledge of HTML, CSS, PHP, MySQL, Javascript/jQuery, web standards, and web deisgn.

WORK EXPERIENCE

Rosetta, Beachwood, Ohio

February 2008 - Present

Senior Interactive Developer

Develop high quality front end code with focus on web standards and scalability. Created and maintained a framework for rapid construction and deployment of e-commerce websites. Utilized web standards including but not limited to XHTML, HTML5, CSS2, and CSS3. Created reusable javascript tools for accessible tabs and navigation menus using jQuery and Dojo. Created Adobe AIR applications using HTML, CSS, Javascript, and Actionscript 3. Learned and demoed the use of YUI CSS framework and HTML5 as part of the team's standards.
